SKP ENGINEERING COLLEGE, Tiruvannamalai - B.Tech IT

YEAR 2022 - YEAR 2026

I have studied software engineering subjects like Data Structures, Algorithms, DBMS, OS, CC, CN etc.

PROJECTS

Student Management(CRUD) - Built using python and SQL

Student Management (CRUD) is a system built using Python and SQL that allows users to Create, Read, Update, and Delete student records. It leverages Python for the application logic and SQL for managing the database.

Simple Calculator - Built Using HTML, CSS, Java Script

A simple calculator is a device that performs basic arithmetic operations like addition, subtraction, multiplication, and division. It takes numerical inputs, processes them according to the selected operation, and displays the result.

Zomato Landing page

A Zomato landing page using HTML and CSS. HTML structures the page, while CSS styles it. This combination ensures a visually appealing and informative page that effectively showcases your Zomato orders and Foods.
